

# RESOURCE LIST

## **Invasive Plant Resources:**

### **SuAsCo CISMA**

The Sudbury, Assabet, and Concord Watershed Cooperative Invasive Species Management Area (SuAsCo CISMA) is a partnership focused on invasive management in 36 communities within the watershed. Their website serves as an excellent resource for removal techniques for prominent invasive species in the New England.

<http://www.cisma-suasco.org/invasives/control-methods>

### **Westfield River Watershed Invasive Species Partnership (WISP) – A Landowner’s Guide to Invasive Plant Management**

This guide was designed for homeowners as a resource for managing invasive plants.

[http://www.thetrustees.org/assets/documents/what-we-care-about/WISP\\_Invasives\\_Management.pdf](http://www.thetrustees.org/assets/documents/what-we-care-about/WISP_Invasives_Management.pdf)

### **Connecticut Invasive Plant Working Group (CIPWG)**

Ran by the University of Connecticut, CIPWG works with researchers, conservation organizations, government agencies, green industries, and the general public to identify and manage invasive species. The website also provides information on upcoming events and lectures.

### **Help Track Invasive Species**

<https://www.eddmaps.org/ipane/>

## **Native Plant Sources:**

### **New England Wetland Plants (NEWP)**

NEWP is a wholesale native plant nursery.

<https://www.newp.com>

### **Earth Tones**

Earth Tones is a native plant nursery in Woodbury, CT.

[www.earthtonesnatives.com](http://www.earthtonesnatives.com)

### **Ernst Seed**

Ernst seed specializes in the distribution of native plant seed. They also provide many seed mixes.

<https://www.ernstseed.com/>

### **Nasami Farm**

Located in Whately, MA, Nasami Farm specializes in growing native plants by seed. Nasami farm is operated in association with the New England Wild Flower Society (NEWFS).

<http://www.newenglandwild.org/visit/nasami-farm>

## **Native Plant Resources:**

### **Audubon Society Native Plant Database:**

The Audubon Society’s Native Plant Database is a great place to explore native plants. The website also provides information on the bird species that depend on certain native plants.

<https://audubon.org/native-plants>

### **Lady Bird Johnson Wildflower Center**

Search for native plants based on sunlight, soil, region and more! An excellent resource if you are looking for a plant substitute. This website provides information about plant’s growing conditions and even distributors.

<https://www.wildflower.org/plants/>

### **Ground Cover Calculator**

This webpage calculates how many plugs for a given are of land.

<https://www.midwestgroundcovers.com/Plant-Calculator>

# RESOURCE LIST

## **Organizations:**

### **Hudson to Housatonic Regional Conservation Partnership (H2H)**

H2H is a cross-boundary collaboration between public and private organizations working in Fairfield County, CT, and Westchester, Dutchess, and Putnam Counties in NY to help landowners and communities protect land and steward natural resources.

<http://h2hrpc.org/>

### **Nonpoint Education for Municipal Officials (NEMO) Program**

NEMO provides information, education and assistance to local land use officials and other community groups on how they can accommodate growth while protecting their natural resources and community character.

<http://nemo.uconn.edu/>

## **Public Spaces with Native Plant Collections**
